AICTE activity report on

**“HELPING LOCAL SCHOOL TO ACHIEVE GOOD
RESULT AND ENHANCING THE COMMUNICATION
SKILLS”**

Submitted in partial fulfillment of the requirements for the award of degree in

Bachelor of Engineering

in

Electrical and Electronics Engineering

by

ABHISHEK N R

4HG20EE401

Under the guidance of

Dr. RUDRAPPA K M

Associate Professor & HOD

Department of Electrical & Electronics Engineering

Government Engineering College, Mosalehosahalli – 573212

2022-2023

Department of Collegiate and Technical Education

Government Engineering College

Mosalehosahalli-573212, Hassan Taluk & District

Department of Electrical and Electronics Engineering

CERTIFICATE

This is to certify that the AICTE Activity report entitled **“HELPING LOCAL SCHOOL TO ACHIEVE GOOD RESULT AND ENHANCING THE COMMUNICATION SKILLS”** submitted by **ABHISHEK N R (4HG20EE401)** in partial fulfil for the award of Bachelor of Engineering in Electrical and Electronics Engineering of Visvesvaraya Technological University, Belagavi during the year 2022-2023. It is certified that all corrections/suggestions indicated for Internal Assessment have been incorporated in the report. The AICTE activity report has been approved as it satisfies the academic requirements in respect of AICTE Activity work prescribed for the said degree.

Signature of Guide

(Dr. Rudrappa K. M)

Signature of HOD

(Dr. Rudrappa K. M)

ACKNOWLEDGEMENT

I feel great pleasure in submitting this report “**HELPING LOCAL SCHOOL TO ACHIVE GOOD RESULT AND ENHANCING THE COMMUNICATION SKILLS**”. The successful completion of any task would be incomplete without the mention of people who made it possible and whose support had been a constant of encouragement which crowned my efforts with success.

I would like to sincerely thank to **Smt. Hemavathi M. S**, Principal, Government High School Muttigehirihalli, Hassan, for providing the necessary permissions, resources and guidelines required to complete this AICTE activity 1 successfully.

I would like sincerely thank to my guide **Dr. Rudrappa K. M**, Associate Professor and HOD, Department of Electrical and Electronics Engineering, for providing the necessary resources and guidelines required to complete this AICTE Activity.

I would like sincerely thank to AICTE Activity coordinator **Dr. Rudrappa K. M**, Associate Professor and HOD, Department of Electrical and Electronics Engineering, for providing the necessary resources and guidelines required to complete this AICTE Activity.

I am extremely grateful to **Dr. Rudrappa K. M**, Associate Professor and HOD, Department of Electrical and Electronics Engineering, for the valuable and timely support throughout the AICTE Activity.

I express my respect and gratitude to our honourable Principal **Dr. T. Rangaswamy**, Government Engineering College, Mosalehosahalli for his motivation and moral support in my academic endeavours.

I also thank my **Department faculty, staff members and my parents** for their encouragement and support for this AICTE Activity.

ABHISHEK N R

Date 13th Dec 2022

To

Principal,

Government Engineering College

Mosalehosahalli, Hassan

Subject: Appreciation Letter

Dear Sir/Madam,

We would like to take this opportunity on behalf of our school, to extend our sincere thanks to Government Engineering College Mosalehosahalli, Hassan for carrying out service at our school.

During the AICTE activity program, students of Government Engineering College Mosalehosahalli have involved our students in so many activities like Soft skill training, Campus cleaning, after the SSLC what next, importance of Basic Hygienic, Career Guidance and so on

This Program has implemented our school students very much and because of that they will be more confident and focused in the coming days and will do better as a human being

We will look forward for such activities in future

With regards,

Head mistress

Headmistress

Abstract

Orientation programs are generally held to exchange ideas and have a better interaction. Prior to the beginning of their college life, it is necessary for the students to have an overview of the complete realm of university life, from academics to social activities. Students should have an exposure to the choices offered to them in their colleges. Prior to, they must also know that in order to get into prominent institutions, they must have a good score in their high school boards. Apart from the academics, students also need to improve their communication skills. Good communication skills are essential to allow others and yourself to understand information more accurately and quickly. The aim of this activity is to orient the students to achieve good results with some easy methods so that each and every student can score good results and master their communication skills.

Introduction

Education is an important tool which is very useful in everybody's life. Education is what differentiates us from other living beings on earth. It makes man the smartest creature on earth. It empowers humans and gets them ready to face challenges of life efficiently. With that being said, education still remains a luxury and not a necessity in our country. Educational awareness needs to be spread through the country to make education accessible. But this remains incomplete without first analyzing the importance of education. Only when the people realize what significance it holds, can they consider it a necessity for a good life.

For this purpose, it was necessary to give an orientation on education to the local schools to achieve good results. Education is the most significant tool in eliminating poverty and unemployment. Moreover, it enhances the commercial scenario and benefits the country overall. So, the higher the level of education in a country, the better the chances of development are. In addition, this education also benefits an individual in various ways. It helps a person take a better and informed decision with the use of their knowledge. This increases the success rate of a person in life. Subsequently education is also responsible for providing an enhanced lifestyle. It gives you career opportunities that can increase your quality of life.

These kind of orientation programs will help the students to score good results and also will motivate the students to work towards achievement of goals. This program will also help the students to understand the current scenario of educational system and how they should take

efforts to fulfil their dreams. The students will get to know the importance of good results for future studies. Because of this orientation program the students will get a direction to study and improve their skills.

This orientation program not only focuses on achieving good results but also helps to enhance their communication skills. At present, communication skills play an important role along with good marks. Having strong communication skills aids in all aspects of life – from professional life to personal life and everything that falls in between. From a business standpoint, all transactions result from communication. Good communication skills are essential to allow others and yourself to understand information more accurately and quickly.

In contrast, poor communication skills lead to frequent misunderstandings and frustration. This orientation program aims at enhancing the communication skills in the students. Well-developed communication skills are vital to a student's academic success. At all levels of education, student must be able to communicate effectively.

Students will get an idea on how to improve their communication skills with the help of this program. They will also get to know the importance of questioning skills. It can also be helpful to pay particular attention to differences, attitudes and abilities when conveying the message. Improving the communication skills will almost certainly ease and improves the interpersonal relationships both at home and at work.

Objectives

The objectives of our activity are as given below:

Helping local schools to achieve good results

As we know “Investment in knowledge pays best interest”. Hence putting efforts in one’s academics will give a fruitful outcome. Having good results will increase the chances of being employed along with receiving a higher salary grade than those who possess mediocre achievements. Employers inevitably strive to hire the best when it comes to employees. With the help of this orientation program, we have convinced the students to focus more on their academics and score good results.

Helping students to enhance their communication skills

With the help of this orientation program students will get to know the importance of communication skills along with good marks. Many students complain that they have a problem with communication skills. We tried to interact with the students and help them to get a better exposure to a better vocabulary through our talks.

Motivating students towards the achieving their goals

Students have their own goals. Through this program we also helped the students with certain strategies to achieve goals. By giving real time examples of the great personalities, we told them that success can be owned only with hard work and perseverance. Also, to achieve their goals, students must firstly focus on scoring well in their academics and improving their communication skills.

Details of the activity

We started with first step in conducting an activity is research, that is collecting all kind of information required for the program. The information we collected was regarding the school we wanted to conduct the orientation program. We enquired the school Principal regarding availability of the students and also took permission from our college, Principal Sir agreed and grant us permission to conduct the activity from 15th DEC 2022.

We carried out this activity in a Government high school Muttigehirihalli, Hassan. Activity starting from 15/12/2022 to 29/01/2023. The program began with the introduction given by the headmaster and he informed students about our objective behind visiting the school.

We began the session by introducing ourselves to the students and gave them a basic idea about how to choose their careers based on their interests and told them about the necessity of in our professional life along with certain tips on choosing their stream and competitive exams in the future.

Figure 1: Team introducing by GHSMH sir

We told the students about our intention behind the orientation program. We began the session by asking their names and their choices about career, so that they could feel free to interact with us. We also gave them an idea about different streams such as commerce, science, arts, diploma, etc. We told them that they must excel at the basics of Mathematics, Physics, and Biology in order to choose any science relating streams.

Figure 2: Students watching Scenes

Science, arts, diploma, etc. We told them that they must excel at the basics of Mathematics, Physics, and Biology in order to choose any science relating streams.

The boys in the above picture is a student of 10th standard. He told us that he wants to be a doctor, and asked us how she could achieve it. We explained to him that in order to be a doctor, she should first choose Science stream in her higher secondary education. After her 12th standard she will have to attend a national level entrance exam NEET. She was satisfied with the guidance and thanked us for it.

A photo of the classroom where the orientation program was held along with the students.

Figure 3: Teammate explaining about the AICTE activity program

Our team comprising of six members visited the Government High School Muttigehirihalli, Hassan. Our primary objective was to interact with the students who recently completed their SSLC and guide them about the various career options and competitive exams available.

Figure 3: Teammate explaining future Planning

We then discussed the various career paths available for students after SSLC such as engineering, medicine, management, law, and other professional courses. We emphasized the importance of choosing a career that aligns with their interests, skills, and personality traits.

Figure 4: Teammate Explaining After SSLC what next

Next, we talked about the various competitive exams available for students to pursue higher education and secure a better future. We provided them with a basic understanding of exams such as JEE, NEET, CLAT, CAT, and other state-level exams. We also explained the exam pattern, eligibility criteria.

The importance of preparing well in advance to secure a good rank.

Figure 5: Teammate explaining about JEE, NEET, AIMS and CET exams

We then distributed handouts and notes to the students, which contained detailed information about various career options and competitive exams. We also encouraged them to discuss their career aspirations with their parents and teachers and seek guidance from them.

Last part of the program

The last part of this activity program was a feedback session in which students and all the teachers present for the program. The feedback from the students was collected in the form of rating. The school provided a feedback letter which shows how impactful the activity was. The activity ended with thanksgiving to all the students and staff of the school. And even we explained about the mathematics basic concepts like Pythagoras theorem and about pie diagram and about English grammar and in science we explained about the planets and the students are involve in all the discussion and interact with us positively.

Conclusion

Promoting the results of local schools is important in showcasing the academic excellence of students and the efforts of teachers and staff. It can also inspire other students to strive for academic success. After SSLC (Secondary School Leaving Certificate) exams, students have several options, such as pursuing higher education, vocational training, or joining the workforce. Encouraging and supporting students to choose the best option for their interests and abilities is crucial.

As for social responsibility activities at Government High School Muttigehirihalli, Hassan, there are several avenues that can be explored. For example, students can participate in community service projects, such as volunteering at local nonprofits or participating in environmental clean-up efforts. They can also organize awareness campaigns on social issues such as gender equality, diversity and inclusion, and sustainability.

In conclusion, promoting the results of local schools can have a positive impact on the community and inspire students to aim for academic excellence. Encouraging and supporting students to choose the best path after SSLC is crucial. Finally, social responsibility activities at schools can help students develop a sense of empathy, compassion, and responsibility towards their community and the world around them.
